Date Filed: November 02, 2026

Witness: Christopher Leigh and Sean P. Noonan
Request from: Connecticut Industrial Energy Consumers

Question:

With reference to the Company's response to CIEC-023(c), explain in detail the corporate governance processes that are used to evaluate AI initiatives.

Response:

The centralized Enterprise AI team governs AI initiatives in partnership with the Executive Steering Committee and leadership team. All initiatives are evaluated for business impact and value, technical feasibility, business priority and readiness.
