Subject: Eversource Proposed Rate Increase docket 26-05-10

Good Morning,

I am writing to express my opposition to Eversource docket 26-05-10. I moved to Suffield a little over a year ago and I am bracing myself for the season's utility bills. I am a senior citizen and I live on a moderate income. As a public utility corporation, Eversource reports their annual earnings and touts it to their shareholders. To me it is egregious to gouge customers and expect us to maintain "their grid", pay for "customer service fees" while they are flush with cash. Asking for an increase now when the economic strain is realized by the majority of the population is callous- the excuse " we haven't had an increase since 2017" is laughable. Part of proper management is to plan ahead for seasonal weather costs not pass those costs to customers especially given those reported annual earnings.

Once again, I oppose the Eversource docket 26-05-10. Thank you for your continued work on behalf of the citizens of CT.

Regards,

Linda Moynahan
