To whom it may concern:

I am writing regarding the proposed Eversource residential delivery rate increase of 109% to be effective on July 1, 2027 if passed. In light of the current economy, inflation, increased health care costs, and extremely high prices at the gas pumps I am **not in favor** of a 109% increase from what appears to be poor management of funds.

I understand the need for improvements and believe Eversource can and should tier proposed increases over 3-5 years, so not to cause residents such financial stress. An increase of 20%-33% is much easier to budget for than a 109% increase.

Thank you for your consideration.

Sincerely,

Jodie Coleman-Marzialo
