Subject: Strong Opposition to Eversource Rate Increase Proposal – Docket No. 26-05-10

Dear PURA Commissioners and Staff,

I am writing to you today as a resident and Eversource electric customer to express my strong opposition to Eversource's proposed rate hike (Docket No. 26-05-10).

Families, seniors, and working households across Connecticut are already stretched to the limit. We are dealing with high costs for groceries, housing, healthcare, insurance, and general living expenses. Already bearing some of the highest electric rates in the nation, our households simply cannot absorb a 50% rate increase!

Furthermore, I urge PURA to reject passing storm cleanup costs and unjustified interest charges onto everyday ratepayers who have no control over utility storm response or corporate financial planning. Utility companies must find internal efficiencies and manage their operating budgets rather than continuously leaning on captive customers to cover their bottom line.

Please stand with Connecticut families, hold Eversource accountable, and reject this rate increase request.

Thank you for your time, consideration, and service to our state.

Sincerely,

Lasha Laggis
