Subject: Eversource Rate Hike
To: <PURA.ExecutiveSecretary@ct.gov>

To whom it may concern:

First of all, I'm just going to say shame on you for trying to file something on the Web at your ridiculous HTTPS portal. In this day and age of technology, your https portal should not be 3 miles long. It's just a deterrent for people being able to get in contact with you. This rate increase is ridiculous. There is no justification for this rate increase. Eversource is notoriously shameful in their actions when we have a storm. Just in the last year I lost hundreds of dollars of groceries for a simple storm. And I don't know if you have been reading what's been going on in the world but everything is so expensive right now and you're just asking us as the public to keep paying more and more and more while the CEO of Eversource and all of his buddies get huge bonuses every year. Eversource makes the bill ridiculous to understand. You've got four different sections that you receive each month and over the past several years we've experienced rate and cost fluctuations on other parts of our bill. But now let's just add some more on to another part of our bill. It's time to stop. We are being gouged on a daily basis while big corporations like Eversource make huge amounts of money on the backs of poor people. This has to stop. This is totally unacceptable.
