Members of Public Utilities Regulatory Authority,

I am writing to OPPOSE the rate hike requested by Eversource. As a long time resident of Connecticut, I have seen nothing but rate hikes WITHOUT adequate attention being paid by the company to infrastructure that would improve service delivery and cost. I have Solar Panels on my house, which should supply nearly ALL my energy needs, yet I am still paying between $130 and $300 a month to Eversource. Before the rate hikes, I paid $9.95 to stay connected to the grid. And why, as a person who pays my Eversource bill every month, am I responsible to reimburse Eversource for people, who could not or did not pay during the pandemic and since? These "Public Benefits" are an unfair and unreasonable cost to consumers by a company that has undoubtedly written off this debt. If I managed my checkbook the way Eversource seems to manage its finances, I would be bankrupt. Please do NOT again bow to essentially a monopoly in this state. Instead DEMAND attention to infrastructure and REDUCE cost to customers.

Respectfully,

Dr. Lisa Kuntz
Waterford, Connecticut
