Re: Docket No. 26-06-01, *Annual Review of Connecticut Electric Suppliers' and Electric Distribution Companies' Compliance with Connecticut's Renewable Energy Portfolio Standards in the Year 2025* - Compliance for calendar year 2025

Dear Mr. Gaudiosi:

The Connecticut Light and Power Company d/b/a Eversource Energy ("Eversource" or the "Company"), hereby submits data in compliance with the Renewable Energy Portfolio Standard ("RPS") for calendar year 2025. This filing provides the Company's compliance with the following Public Utilities Regulatory Authority ("PURA") dockets:

1. Docket No. 26-06-01, *Annual Review of Connecticut Electric Suppliers' and Electric Distribution Companies' Compliance with Connecticut's Renewable Energy Portfolio Standards in the Year 2025*– Compliance for calendar year 2025. In this filing the Company demonstrates its 2025 compliance with the RPS requirements set forth in Sections 16-243q, 16-244c, 16-245, and 16-245a of the Connecticut General Statutes for calendar year 2025. In accordance with the annual reporting requirements, the Company is including supporting documentation from the New England Power Pool ("NEPOOL") Generation Information System ("NEPOOL GIS"), which demonstrates the Company's actions to meet the Connecticut RPS requirement for the applicable time period.

   Attached to this transmittal is Eversource's Annual RPS Compliance Report in the form directed by PURA in the July 15, 2026 Notice of Proceeding in this docket, including the following required Exhibits:

   Exhibit A – Connecticut Annual RPS Compliance Report 2025 with supporting NEPOOL GIS documentation;
   Exhibit B – Class I & II by Generator Location;
   Exhibit C – Class I, II & III Fuel Sources; and
   Exhibit D – Voluntary Green Offerings.

EVERSOURCE ENERGY

107 Selden Street
Berlin, CT 06037

Eversource has also attached the supporting NEPOOL GIS data in the following appendix to Exhibit A:

Appendix 1 - Settled Certificates Disposition – Year 2025 – Q1 – Q4 (198 pgs.)

2. Pursuant to Docket No. 08-09-15, *Annual Review of Connecticut Electric Suppliers' and Electric Distribution Companies' Compliance with Connecticut's Renewable Energy Portfolio Standards in the Year 2007*- Compliance, Eversource is providing information responsive to PURA's directive that, "…in future annual RPS reports, Eversource is required to separately show the number of retired [renewable energy credits ("RECs")] belonging in the C&LM Fund." *See* Decision (12/12/09) at pg. 20.

   The United Illuminating Company ("UI") administers the sale and retirement of CT Class III RECs for both the Company and UI. Therefore, the Company refers PURA to UI's confidential filings for the quarterly sales of 2025 vintage CT Class III RECs.

   UI concluded the Q4 2025 Class III Request for Bids on May 13, 2026. On May 22, 2026, 17 CT Class III RECs from a non-residential Class III qualifying project were delivered to the CL&P GIS account. Eversource sold the 17 Class III RECs, via a broker, to ensure the RECs were retired in the 2025 RPS compliance year.[1] The proceeds from the sale of the Class III RECs were transferred to Eversource's energy efficiency programs.

3. Docket No. 05-07-19RE01, *DPUC Proceeding to Develop a New Distributed Resources Portfolio Standard (Class III) – 2007 Revisions* - Compliance with Order No. 3. This compliance item directs each electric supplier to submit, in its annual compliance report submitted pursuant to Section 16-245a-1 of the Regulations of Connecticut State Agencies, the percent of total electricity output generated from Class III sources for the calendar year covered by the report. The required information is included in Exhibit A.

If you have any questions with the information provided, please contact me or Tracey Lengyel-Krechko at 860-665-4772 (tracey.lengyel-krechko@eversource.com).

Sincerely,

Vincent P. Pace
