RE: **Docket No. 26-06-01 – 2025 Annual RPS Report -** Application of Class III REC Exemption

---

Pursuant to Connecticut General Statutes § 16-243q(a)(4), ENGIE Resources LLC ("ENGIE") respectfully submits its Class III Renewable Energy Certificate (REC) Exception as provided under the statute.

ENGIE has determined that it qualifies for the reduced Class III REC requirement of **4%**, applicable to **retail electric supply contracts entered into or renewed between January 1, 2023, and June 30, 2024**. This determination is based on a review of contract execution and renewal dates, which fall within the statutory window for eligibility.

In accordance with the statute, the reduced Class III requirement applies to qualifying contracts from **July 1, 2024, through January 1, 2026**, or until such contracts are renewed, whichever occurs first.

ENGIE has provided supporting documentation detailing:

- The list of qualifying contracts;
- Execution and renewal dates; and
- Corresponding load volumes;

We respectfully request that PURA accept this filing and the application of the Class III REC Exception for the identified contracts.

If you have any questions with respect to this filing or require additional information, please contact Stuart Eng, Director of Portfolio Management via email at stuart.eng@engie.com or Justin Rasekhi, Portfolio Analyst via email at justin.rasekhi@engie.com.

Regards,

Initial SM
