GenConn Energy LLC **Witness: Devang Patel**
April Theberge

Docket No. 26-06-02

Date Submitted: October 1, 2026

RRU-045 Q:

(IN-SERVICE DATES) Application, Att. GenConn-11; Att. GenConn-02 (Settlement), Ex. 4, Sch. WP C-3.1 c; Att. GenConn-01, p. 7; Att. GenConn-EP2, pp. 44 and 107. Regarding the depreciation anchor dates:

a. Produce the documents establishing the commercial operation dates and the date recorded as plant in service date for each facility.
b. Reconcile the May and June dates; state the month in which depreciation of the original plant commenced and the month in which the thirty-year period expires for each facility; and state whether the original plant is depreciated over thirty years or 29.916667 years on the books and in WP C-3.1.
c. Quantify the effect on the 2027 revenue requirement of computing the useful lives in Attachment GenConn-11 from the commercial operation dates.

RRU-045 A:

The Company notes that this interrogatory cites to GenConn-02 (Settlement). For clarity, the Company's proposed revenue requirement in this case is contained in Attachment GenConn-02. In contrast, GenConn-02 (Settlement) was provided for illustrative purposes only (Attachment GenConn-01, at iii n. 5, 5, 9-10, 19, n. 11).

Please refer to the Company's response to Interrogatory RRU-031.

a. Please refer to RRU-034 Attachments 1 and 2. Consistent with Article 5 of each of the CfDs, the term of each agreement commences on the date the facility first achieves commercial operation (as defined in the CfD) and ends on the thirtieth anniversary thereof.

b. For GenConn Devon commercial operations commenced in May 2010 and the corresponding CfD commenced on June 1, 2010. For GenConn Middletown commercial operations commenced in May 2011 and the corresponding CfD Commenced on June 1, 2011. The original plant depreciation commenced on June 1 for a period of 30 years on the books – consistent with the use of the following month convention. GenConn Devon and Middletown will be fully depreciated at the end of May 2040 and the end of May 2041 respectively.

c. As Attachment GenConn-11, updated in RRU-031 Attachment 1, presents an illustration of additions and manual calculation retirement values from 2019 to 12/31/2025 the 2027 revenue requirements presented in Attachment GenConn-02 are based on actual values in

the Company's SAP accounting software, which are based on actual dates of additions and retirements and a daily depreciation calculation. As such there would be immaterial differences between actuals and what is illustratively presented in Attachment GenConn-11. There is no effect to the Company's proposed revenue requirement for 2027.
