PROPOSED FINAL DECISION

This proposed final Decision is being distributed to the parties in this proceeding for comment. The proposed Decision is not final. The Authority will consider the parties' arguments and exceptions before reaching a final Decision, which may differ from the proposed Decision. Therefore, this proposed Decision does not establish any precedent and does not necessarily represent the Authority's final conclusion.

PROPOSED FINAL DECISION

I. INTRODUCTION

A. SUMMARY

In this Decision, the Public Utilities Regulatory Authority determines that the solar generation facility located at 67 New Dam Road in Sanford, Maine qualifies as a Class I renewable energy source.

B. BACKGROUND OF THE PROCEEDING

By Application received June 15, 2026 (Application), Mousan River Solar, LLC (Company) requests that the Public Utilities Regulatory Authority (Authority) determine that the solar generation facility (Facility or Project) qualifies as a Class I renewable energy source.

C. CONDUCT OF THE PROCEEDING

There is no statutory requirement for a hearing, no person requested a hearing, and none was held.

D. PARTICIPANTS

The Authority recognized the following as Participants to this proceeding: Mousan River Solar, LLC, 5 Columbus Circle, 16th Floor, New York, NY 10019; the Office of Consumer Counsel, Ten Franklin Square, New Britain, CT 06051; and the Commissioner of the Department of Energy and Environmental Protection, 79 Elm Street, Hartford, CT 06106.

II. STANDARD REVIEW

Pursuant to General Statutes § 16-1(a)(20), “Class I renewable energy source” includes energy derived from solar power.

III. AUTHORITY ANALYSIS

As provided in the Application, the Facility generates electricity using solar power. The Project began commercial operation on October 24, 2025, and has an installed capacity of 20 MW. The Facility's ISO-NE Asset Identification Number is MSS75636. The Project is a grid-connected generation facility located in Maine, which is within the control area of the ISO-NE. The Facility meets the requirements for monitoring and verification of its electricity produced

IV. CONCLUSION

The Authority reviewed all information in the record and finds that pursuant to General Statutes § 16-1(a)(20), the Facility qualifies as a Class I renewable energy source, effective April 1, 2026. The Authority assigns the Facility Connecticut Renewable Portfolio Standard Registration No. CT260608.

The Authority's determination in this docket is based on the information submitted by the Company. The Authority may reverse its ruling or revoke the Company's registration if any material information provided proves to be false or misleading. The Company is reminded that it is obligated to notify the Authority within 10 days of any changes to any of the information it has provided.

DOCKET NO. 26-06-08 APPLICATION OF MOUSAN RIVER SOLAR, LLC FOR QUALIFICATION OF 67 NEW DAM ROAD, SANFORD, ME AS A CLASS I RENEWABLE ENERGY SOURCE
