PERMIT - AGREEMENT

By and between THE METROPOLITAN DISTRICT, a municipal corporation chartered by the State of Connecticut, acting herein by its Bureau of Public Works, duly authorized under the provisions of an Ordinance Concerning Construction of Sewers by and at the Expense of Developers, passed February 6, 1956, hereinafter designated the DISTRICT, and

STATE OF CONNECTICUT
PUBLIC WORKS DEPARTMENT

owner or owners of property to be served in whole or in part by the proposed sewers hereinafter described, and the administrators, successors and assigns of said owner or owners, hereinafter designated the STATE.

This permit-agreement is entered into under authority of a vote of the Bureau of Public Works passed November 24, 1958 and reading as follows:

VOTED: That permission be granted the State of Connecticut Public Works Department to cradle, rebuild sections of or replace the existing Cemetery Brook Trunk Sewer between Flatbush Avenue and Chandler Street, Hartford, under a "Developer's Permit-Agreement", in accordance with plans approved by the Chief Engineer, which sewer replacement, if any, is to be incorporated into the public sewer system except for laterals connected thereto, and provided that if the sewer is rebuilt in other than its present location satisfactory rights-of-way are conveyed to the District.

The DISTRICT agrees to permit the STATE, through a licensed drain layer employed by it, to construct the SEWER at the State's own expense, and, subject to the terms and conditions herein contained, to accept the SEWER and incorporate the same into the District's public sewer system. Acceptance by the District shall be considered automatic upon formal acceptance of the completed sewer by the State.

The STATE agrees that, in consideration thereof, it will have the SEWER constructed complete in every detail in a good and proper manner in accordance with construction plans approved by the Chief Engineer of the Bureau of Public Works, which plans are made a part hereof, and under the direction and supervision of said Chief Engineer and in accordance with the standard specifications and practices as used by said bureau and in accordance with the terms of an ordinance adopted June 5, 1950, and entitled "An Ordinance Regulating the Construction of, Use of, Discharge of Substances into and Connections to the Public Sewers and Drains of The Metropolitan District and the Installation of Drains and Other Pipes and Fixtures Intended to Discharge Wastes into Said Sewers and Drains," and amendments thereto, all without expense to the District.

The State shall secure its obligations under this Permit-Agreement with THE METROPOLITAN DISTRICT by having the contractor performing the sewer work maintain at his own expense at least the following forms of insurance:

(a) Owners' Protective Liability and Property Damage Insurance for and in the name of The Metropolitan District and covering all claims against the District arising out of this Permit-Agreement.
(b) Public Liability and Property Damage Insurance, including coverage for acts of subcontractors, for all liability assumed under this Permit-Agreement, and, where applicable, coverage for use of explosives, for collapse of buildings and damage to underground properties, and coverage required by any law or municipal ordinance or regulation.
(c) Automobile Liability and Property Damage Insurance, including coverage for hired or borrowed cars.
(d) Workmen's Compensation and Employers' Liability Insurance, as provided by Connecticut law and custom.

The minimum amounts of all such insurance shall be not less than:

Bodily Injury	per person	$150,000;	per accident	$300,000
Property Damage	per accident	$10,000;	aggregate	$25,000

- 2 -

Acceptable certificates on the District's standard form shall be submitted in duplicate before work is begun. Work shall not be continued after expiration of any of the above forms of insurance until the same has been renewed. If the District so requires, original policies or certified copies thereof shall be submitted in lieu of certificates.

The STATE agrees that the existing District right-of-way over its land between Flatbush Avenue and Chandler Street, Hartford, as recorded in Volume 622, Page 656, of the City of Hartford Land Records, adequately covers the sewer as relocated under this agreement.

The STATE agrees that it will maintain and operate forever any portion of the sewers, house connections, sewage pumping stations, force mains or other sewer appurtenance which it is permitted to build in connection with the SEWER and which is not specifically included in the Bureau of Public Works vote granting permission to the STATE or which is specifically mentioned in said Bureau vote as being excluded from the SEWER to be taken over and incorporated into the DISTRICT'S public sewer system.

It is mutually agreed that the DISTRICT may at any time permit others than the STATE to regularly use the SEWER.

The STATE agrees that the obligations and privileges herein assumed by it and granted to it shall be obligations and privileges running with the land concerned with or served by the proposed sewer, and resting on or granted to the succeeding owners of said land as well as on or to the parties described by name above.
