[Customer contact],

Thank you for choosing Cloudshadow Energy. We've reviewed your accounts and requested competitive bids from suppliers. Below are the results for your review, along with our recommendation and the next step to secure your pricing.

I recommend [supplier legal name] for [term] at $[customer rate]/kWh, including the $[authorized fee]/kWh brokerage fee, subject to current supplier confirmation. [Deal-specific reason for the recommendation against the other options below.]

Supplier comparison

All solicited suppliers and all received offers are shown below. Rates are $/kWh; the customer price equals supplier generation rate plus the disclosed Cloudshadow fee. Each fee is included once. Utility delivery charges and taxes are additional.

Supplier / response	Term	Generation	CS fee	Customer rate
[Supplier legal name]	[Term]	[Rate]	[Fee]	[Rate + fee]
[Supplier legal name]	[Term]	[Rate]	[Fee]	[Rate + fee]

Supplier / response	Term	Generation	CS fee	Customer rate
[Solicited supplier / no bid]	N/A	N/A	N/A	N/A
[Solicited supplier / pending]	N/A	N/A	N/A	N/A

Compensation: the $[authorized fee]/kWh fee was disclosed and authorized in the CT CESA before solicitation. The supplier collects this customer-paid amount through the supply rate and passes the entire fee to Cloudshadow; no portion is retained and no additional supplier compensation is paid. Any fee increase requires an updated offer and prior written customer authorization. The comparison and receipt acknowledgment do not execute a supply agreement.

Before we finalize

Requested supply start: [Month/year], subject to utility enrollment and meter reads following expiration of existing commitments.

• Scope: [Account count, account numbers, customer legal name and Connecticut service addresses].

• Estimated combined annual usage: [annual usage] kWh. [Identify the account scope covered by each quoted supplier if it differs.]

• Quoted product: [product, usage swing, billing, adjustments and material conditions]; supplier contract terms govern.

• Customer selects the supplier, product, term and price and signs the supplier contract directly.

• The $[authorized fee]/kWh brokerage fee is included in each quoted customer rate and is not added again.

Time-sensitive pricing

Quotes are subject to supplier confirmation and may change before execution.

Supplier deadlines and final offer validity: [Verified deadline, time zone and conditions].

No rate is locked or contract awarded by this pricing communication.

Your next step

Please sign the receipt acknowledgment below. After receipt, separately identify any preferred supplier, product, term and customer rate, or decline all offers. Cloudshadow will obtain current pricing for your final review; the customer executes the supplier contract directly. A receipt acknowledgment or silence is not offer acceptance, a rate lock or enrollment.

Customer acknowledgment of receipt

I acknowledge receipt of the complete supplier solicitation list, each response/status and offered rate, and Cloudshadow's compensation included in each offer in comparison [pricing receipt reference], version CT-2026-10-29-v3. This signature acknowledges receipt only, not selection or acceptance of a supplier contract.
