STATE OF CONNECTICUT
PUBLIC UTILITIES REGULATORY AUTHORITY

APPLICATION OF THE CONNECTICUT LIGHT AND POWER COMPANY d/b/a EVERSOURCE ENERGY TO AMEND ITS RATE SCHEDULES	:	**DOCKET NO. 26-05-10**
	:	**OCTOBER 29, 2026**

MOTION FOR EXTENSION OF TIME BY
THE CONNECTICUT LIGHT AND POWER COMPANY

The Connecticut Light and Power Company d/b/a Eversource Energy ("CL&P" or the "Company") respectfully requests that the Public Utilities Regulatory Authority ("PURA") grant an extension of time for the Company to submit responses to the interrogatories issued by PURA on October 20, 2026 ("PURA Set 14").

Specifically, the Company seeks a 5 business-day extension of time for PURA Set 14, thereby moving the response deadline to November 10, 2026. The Company requests an extension of time for PURA Set 14 consistent with PURA's Notice of Proceeding issued on June 2, 2026 ("Notice"), which requires that any person requesting a procedural change or other PURA approval must file a motion. Notice at 2. Specifically, the Notice requires that motions for extension of time "shall be filed in advance of the prescribed deadline and should provide sufficient time for the Authority to consider timely objections and to rule on the motion." Id. The Company submits this Motion three business days in advance of the current due date for PURA Set 14.

PURA Set 14 was issued with an initial due date of November 3, 2026. PURA Set 14 encompasses a total of 2 individual interrogatories, plus sub-parts. PURA Set 14 seeks detailed information related to relevant aspects of the Company's rate case application. Specifically,

PURA Set 14 requests detailed information regarding the Company's F-Factor and total factor productivity study.

At this time, the Company has determined it is unlikely it will be able to produce complete and accurate responses to PURA Set 14 within the current due date. PURA Set 14 requires in-depth research, data extraction, analysis and review as well as input from subject matter experts and numerous individuals from various parts of the organization, including management personnel, to ensure complete and accurate responses.

The Company bears the evidentiary burden to prove the elements of its rate proposals and therefore requires a fair and reasonable opportunity to collect and provide information sought by PURA and other parties in furtherance of that obligation. Although many aspects of a rate proceeding are reasonably anticipated by the Company, the Company cannot anticipate all permutations of information that may be requested; the timing of those requests; requests for specific documentation; or, requests that involve research of historical records, records of accounts, or even employee-related recollections. The Company must have a reasonable opportunity to respond with full and adequate information, consistent with the Company's due process rights to present its case.

The Company is working diligently and using best efforts to produce the responses to PURA Set 14 on a timely basis. However, for the reasons stated in this Motion, the Company requires a five-day extension of time for PURA Set 14 in order to have a reasonable amount of time to research, prepare, review, and submit complete and accurate responses to PURA Set 14. Where feasible, the Company has filed responses to interrogatories in advance of due dates. For PURA Set 14 that requires a longer time to produce complete and accurate responses, the Company will continue to use best efforts to submit its responses as soon as possible. The Company has

limited this extension request to only PURA Set 14 to ensure that it does not prejudice any other party.

WHEREFORE, the Company respectfully requests PURA grant a 5 business day extension of time for PURA Set 14, thereby moving response deadline to November 10, 2026.

Respectfully submitted,

THE CONNECTICUT LIGHT AND POWER COMPANY d/b/a EVERSOURCE ENERGY
