February 12, 2026

Attention: Craig Scott

Aero Gear
1050 Day Hill Rd,
Windsor, CT 06095

Regarding: Authorization to energize the 687.5 kW PV installation of eleven (11) SMA America 62.5 kW (Model STP 62-41 (480 V[SI1]) inverters for Aero Gear located at 1050 Day Hill Rd, Windsor, CT 06095.

Approval to Interconnect Date: February 4, 2026

Dear Craig Scott,

This letter is an approval to energize the above stated project to the Eversource system in accordance with the Interconnection Agreement. As stated in the Interconnection Agreement (enclosed) and the "Generator Interconnection Guidelines," the following items must be provided the Eversource Distributed Resources Group on a regular basis:

1. Annually: Provide a certificate of insurance as described in the enclosed interconnection agreement prior to the insurance expiration date. Please send it to InsuranceCTDG@Eversource.com or to the following address by that date:

   Eversource Distributed Resources
   107 Selden Street
   Berlin, CT 06037

2. You are responsible for the periodic maintenance of the relays, interrupting devices, control schemes, and batteries that involve the protection of the EDC's system. Eversource may audit these reports, logs, and other material regarding the interconnection of the Generating Facility at its discretion.

Sincerely,

Winston D. Brown, MBA
