Your Messages:

The KW Demand pricing changed this month. The demand charge on this bill was prorated.

Beginning September 1, you may notice an increase in the Public Benefits Charge and Transmission charges in your electric bill totaling approximately 0.47 cents per kWh. The Public Benefits Charge pays for programs that UI is required to implement by state legislators and other policymakers. The Transmission charges contribute to the regional, interstate electric grid overseen by ISO-New England. Your total bill impact will depend on your rate and energy use.
