Mr. Jeffrey R. Gaudiosi, Esq.
Executive Secretary
Public Utilities Regulatory Authority
10 Franklin Square
New Britain, CT 06051

Re: Docket No. 26-08-02, Annual Residential Renewable Energy Solutions Program Review – Year 5, Compliance with Order No. 26

Dear Mr. Gaudiosi,

Pursuant to the Public Utilities Regulatory Authority's ("PURA" or the "Authority") Final Decision in Docket 25-08-02 (the "Year 5 Decision") dated November 17, 2025, The United Illuminating Company ("UI" or the "Company") hereby submits this supplemental filing.

Order No. 26 of the Decision states:

> *No later than June 1, 2026, the EDCs shall file an update to CAE-4 as compliance in Docket No. 26-08-02. In addition to the total number of RRES projects online without a production meter installed broken down by solar installer, the EDCs shall also include the number of third-party-owned and the number of customer-owned systems.*

In compliance with the above, UI submitted Attachment 1, which contained known data from PowerClerk and SAP specific to interconnection applications participating in the Residential Renewable Energy Solutions (RRES) program without a production meter installed.

After the original submission, the Company conducted a thorough review. As a result, UI determined its initial response to CAE-004 submission relied on PowerClerk interconnection application data only, which did not fully align with operational system records. UI has adopted a refined approach that utilizes SAP-based meter records, program participation indicators within the customer information and billing systems, and PowerClerk interconnection project data. This enhanced methodology is intended to provide a more accurate and complete representation of RRES projects that are online without a production meter installed.

I hereby certify service of this filing upon all parties or intervenors of record in this proceeding.

Sincerely,

James Nitz
