CAE-010

The United Illuminating Company **Witness: Katerina Miller**

Docket No. 26-08-02 **Page 1 of 1**

Date Submitted: May 28, 2026

CAE-010 Q:

Motion No. 26, Docket No. 25-08-02, pp. 10. Provide an estimate of the annual lost EDC revenue if the RECs associated with DC-coupled solar and storage systems are no longer sold into the market.

CAE-010 A:

The United Illuminating Company ("UI") estimates that the annual lost revenue associated with Renewable Energy Certificates ("REC"s) from DC-coupled solar and storage systems would be approximately $84,000.

This estimate is derived by calculating the estimated annual production of these projects in megawatt hours ("MWh"), which is rounded to the nearest whole number of RECs. This total is then multiplied by an assumed REC market value per REC, resulting in the estimated annual revenue impact.
