Mr. Jeffrey R. Gaudiosi, Esq.
Executive Secretary
Public Utilities Regulatory Authority
10 Franklin Square
New Britain, CT 06051

Re: Docket No. 26-08-02, *Annual Residential Renewable Energy Solutions Program Review Year 5* - Compliance, Order No. 11 in Docket 25-08-02

Dear Mr. Gaudiosi,

Pursuant to the Public Utilities Regulatory Authority's ("PURA" or the "Authority") December 17, 2025 Decision in the above referenced proceeding, The Connecticut Light and Power Company d/b/a Eversource Energy ("Eversource") hereby provides this compliance filing.

Specifically, Order No. 11 states:

> *Reference Year 2 Decision, Order No. 12, p. 35: On a [quarterly basis beginning on January 1, 2024] through [the duration of the RRES Program], the EDCs shall provide updates to Docket No. 21-08-02 Response to Interrogatory CAE-8. Specifically, the Authority adapts the ruling in Docket No. 21-08-02 to Motion No. 26 dated March 22, 2022, which directed the EDCs to submit as a compliance filing an update to Interrogatory CAE-8. Such filings shall be made in [the annual review proceeding (i.e., in 2024, Docket No. 24-08-02)] and should also include tariff type and incentive adder status information. [Last, beginning by July 1, 2024, the quarterly filings shall include: (1) the total number of low-income customers and customers located in Distressed Municipalities, and associated project capacity, which do not receive either adder, in addition to the existing breakouts for customers enrolled in the low income and Distressed Municipality adders; (2) the number and associated project capacity of customers who reside in environmental justice census block groups, broken out by customers that qualify for the low-income and Distressed Municipality adders and those that do not; and (3) the number and associated project capacity of RRES customers who qualify for the Federal Justice 40 disadvantaged communities definition.]*

In compliance with the above, Eversource submits Attachment 1, which contains data specific to interconnection applications that have applied for Residential Renewable Energy Solutions (RRES), as originally provided in response to CAE-008, updated through July 2026. Note a correction was made to prior reported calculations for the DM Adder Eligible Capacity row of the RRES Applications Approved sections.

In the event of any questions, please do not hesitate to contact the undersigned counsel.

Respectfully submitted,

The Connecticut Light and Power Company
d/b/a Eversource Energy
