CAE-029

The United Illuminating Company **Witness: David Hernandez**

Docket No. 26-08-02 **Page 1 of 1**

Date Submitted: August 17, 2026

CAE-029 Q:

Eversource Comments, May 28, 2026, pp. 6-7. Does UI agree that customers generally should not be credited or charged for operating DERs independent of the power system during outages? Explain why or why not.

CAE-029 A:

UI is in agreement with Eversource that customers should not be credited nor charged for operating DERs during outages. The Company may not have the capability to monitor or meter the production of the DER during an outage and therefore would not be able to apply an accurate credit or charge.
