Docket No. 26-05-11

Re: Docket No. 26-05-11 - Application for Approval to Install and Operate a Water Submetering System at the August at Steelpointe Harbour Apartments, 55 E. Main St., Bridgeport, CT (Facility).

Dear Docket Participants:

On May 20, 2026, SP Residential I, LLC (Company) applied to the Public Utilities Regulatory Authority (Authority or PURA) for approval to install and operate a water submetering system at the Facility. Aquarion Water Company was designated as the regulated water utility for the Facility. On May 20, 2026, the Authority initiated this uncontested proceeding to address the issues raised in the application. See Conn. Agencies Reg. §§ 16-11-55 and 16-11-67; Decision, May 16, 2001, Docket No. 00-05-26, DPUC Review of Submetering of Water Service.

The Authority is statutorily charged with regulating Connecticut's investor-owned water utilities under Title 16. Public Act 24-1 allowed for the creation of the Aquarion Water Authority (AWA), a quasi-public corporation and political subdivision of the State of Connecticut. Significantly, under Public Act 24-1, the Authority does not have jurisdiction over AWA. See Public Act 24-1 § 61.

On June 30, 2026, Eversource Energy announced the sale of Aquarion Water Company and a subsidiary[1] to AWA. The sale closed and effective July 1, 2026, Aquarion CT was no longer a public service company subject to the Authority's jurisdiction under Title 16. Accordingly, because the Company is no longer proposing to submeter water *off of the supply of a regulated public utility*, the Authority closes the instant docket.

By the Presiding Officer,

David Arconti, Jr.
