GenConn Energy LLC

Witness: Brandon Shatraw
Devang Patel

Docket No. 26-06-02

Date Submitted: October 19, 2026

LFE-013 Q:

Provide the contract and or agreement GenConn has for the generator testing and inspection. (Requested of GenConn)

LFE-013 A:

Generator Testing as indicated in Attachment GenConn-01 was completed for several units following Requests for proposals and Purchase Orders in 2023/2024, which provided the basis for use of the same vendor as GenConn continues to test each of the generators to assure consistency and support for all repairs and additional maintenance the generators may require.

Each Generator test is typically supported by separate purchase orders and related proposals from the same vendor to assure consistency of testing and reporting. The Company would issue purchase orders to complete Generator testing for Devon units 17 and 18 within the 2026 and 2027 timeframe. The Middletown Unit 15 Generators testing is being planned for 2027.

All bids were provided in Docket No. 23-06-02, in the file entitled: 2023-06-30_GenConn_Rate_Case_Application_Attachment 8 #23-06-02.[1] The timelines were defined to be during one of the planned maintenance outages during spring and/or fall periods. In addition, test reports for the Units testing were provided in Docket No. 24-06-02, in the files entitled 24-06-28 GenConn Expense Project 2_Attachment 1 #24-06-02 and 24-06-28 GenConn Expense Project 2_Attachment 2 #24-06-02.[2]

The purchase orders for the previous generator testing is included in LFE-013 Attachment 1 CONFIDENTIAL.
