November 3, 2026

Mr. Jeffrey R. Gaudiosi, Esq.
Executive Secretary
Public Utilities Regulatory Authority
10 Franklin Square
New Britain, CT 06051

RE: Docket No. 26-08-02, Annual Residential Renewable Energy Solutions Program Review and Rate Setting, **Compliance with Order No. 27**

Dear Mr. Gaudiosi:

The United Illuminating Company ("UI" or the "Company") hereby submits this compliance filing to the Public Utilities Regulatory Authority ("PURA" or the "Authority"), pursuant to Order No. 27 of the Final Decision, issued on October 28, 2026, in the above-referenced docket. Order No. 27 states:

> *Effective immediately, UI shall resume reporting and selling RECs from RRES solar PV systems paired with DC-coupled storage. UI shall file compliance in the instant proceeding once REC sales have resumed.*

In compliance with Order No. 27, UI hereby notifies PURA that, on October 28, 2026, the Company has resumed reporting of renewable energy certificates ("RECs") associated with Residential Renewable Energy Solutions ("RRES") solar photovoltaic ("PV") systems paired with direct-current ("DC")-coupled storage.

As noted in the Final Decision, UI had ceased uploading RECs associated with DC-coupled RRES systems into the New England Power Pool Generation Information System ("NEPOOL GIS").The total generation associated with DC-coupled RRES systems previously excluded from NEPOOL GIS reporting is 447 megawatt-hours ("MWh"). Consistent with the Authority's directive, the Company will upload this generation, together with ongoing generation from DC-coupled RRES systems, to NEPOOL GIS in accordance with the applicable NEPOOL GIS reporting schedule. Following issuance, UI will sell the resulting RECs in the ordinary course of business.

I hereby certify service of this filing upon all parties and intervenors of record in this proceeding.

Sincerely,

James Nitz
