Bruno Fernandes

Docket No. 26-08-08

Date Submitted: April 2, 2026

PMUI-002 Q:

Please append the projects in last year's Annual Grid Needs Filing (Appendix 5, as filed in 25-08-08) to this year's Annual Filing (Appendix 6), adding a column to indicate the process cycle in which a project was originally filed.

PMUI-002 A:
As explained in PMUI-001, the intent of the Grid Needs Filing is to review forward looking projects for NWS viability. The re-analysis of a project previously approved is unnecessary and undermines the work conducted by the Process Monitor in the prior cycle. However, in the spirit of collaboration, the requested information is available in Column K of Appendix 1- Combined Grid Needs Filing.
