The United Illuminating Company

Witness: Maritza Estremera Jimenez
Bruno Fernandes

Docket No. 26-08-08

Date Submitted: April 2, 2026

PMUI-005 Q:

If you have not performed additional evaluation on the applicable projects from last year's filing, please confirm whether you plan to do so, describe the timing and process of this evaluation, and specify whether you plan to explicitly include the projects in future Grid Needs Filings.

PMUI-005 A:
As stated in PMUI-004, UI previously evaluated the applicable projects from its prior Grid Needs Filing for Non-Wires Solutions (NWS) consideration as part of its established comprehensive project evaluation process. Details regarding the NWS evaluation outcome were previously provided in Appendix 1 of PMUI-001. Given that these projects have already undergone a comprehensive review and have been advanced to an appropriate level of maturity, UI will not perform additional NWS reevaluations. Accordingly, further reevaluation for NWS consideration and inclusion of these projects in future Grid Needs Filings is not appropriate. As stated in PMUI-004, UI evaluated projects from its prior Grid Needs Filing for Non-Wires Solutions (NWS) consideration.
