The United Illuminating Company

Witness: Maritza Estremera Jimenez
Bruno Fernandes

Docket No. 26-08-08

Date Submitted: April 2, 2026

PMUI-009 Q:

Regarding Financial Data Requirement #4 (Appendix 5), several projects are justified as "Infrastructure Replacement", or similar permutations. Please update the "Project Justification" column rationale to align with the exclusion criteria set forth in the 24-08-08 Final Decision. [4]

PMUI-009 A:

Appendix 5- NWS Quarterly Filing Project Justification mirrors the investment categories outlined in *Appendix 4- CIP 7 CAPEX – 2026-2030*. This is the same approach the Company took last year in NWS Cycle 1.

While the stakeholder question-and-answer period applies only to the Grid Needs Filing and not to the Quarterly Filings, the attached *Appendix 2 – Updated NWS Quarterly Filing* includes the requested information in Column K in the interest of collaboration and timely feedback, consistent with Quarterly Filing practices proposed during the 4th quarter stakeholder meeting during cycle 1.
