Date Filed: April 10, 2026

Witness: WALKER, GERHARD, Freeman, Lavelle A
Request from: Process Monitor

Question:

In the expanded Annual Filing, please indicate if projects filed in the prior Process Cycle have been installed, cancelled, have had changes in scope of the grid need or the expected price of the wires or non-wires solution or if they have moved to more advanced funding stages.

Response:

Please refer to the Company's response in PMEV-002. The Company's understanding is that each annual cycle's grid needs evaluation is forward looking, and once an assessment is made in that cycle, the Company has been given the stakeholder and regulator input to determine the path forward for each named project. The Company also understands that, should there be expansion of any project's scope or price, that the project will first be evaluated internally through the Company's existing processes, and if a new or changed grid need is identified, that project would be included in the next annual process filings for a new evaluation by stakeholders and PURA.
