Company
Docket No. 26-08-05
Response to Interrogatory CAE-10
Date of Submission: August 28th, 2026
Witness: Jennifer Runyon Eversource, Logan Taricani United Illuminating, Sergio Carrillo Connecticut Green Bank

Question:

CAE-10 Report the average and median enrollment incentives received or reserved by each customer class (residential and commercial) since the implementation of Construct 5

Response:

The Green Bank added a "Median of Upfront or Enrollment Incentive" datapoint on the ESS data dashboard's[1] "Total Tables" (Tab or Page 10) so it will be easier to access this information in the future. The Average of Upfront Incentive is on the "Total Tables" in the second table, and the titles have been adjusted to "Median of Upfront or Enrollment Incentive" and "Average of Upfront or Enrollment Incentive" for clarity.

As of August 20, 2026, the "Median of Upfront or Enrollment Incentive" is $900 for 149 number of projects and the "Average of Upfront or Enrollment Incentive" is $2,061 for 149 number of projects when the Sector is filtered for "Residential", "Construct 5" under "Program Dispatch Select" and under "Transfer from ConnectedSolutions" when filtered on "No".

The Program Administrators are unable to provide average and median enrollment incentive information for C&I projects since no C&I projects have been approved for Construct 5.

	Number of Projects	**Average of Upfront or Enrollment Incentive**	**Median of Upfront or Enrollment Incentive**
Residential	149	$2,061	$900
C&I	0	$0	$0
