Date Filed: April 10, 2026

Witness: WALKER, GERHARD, Freeman, Lavelle A
Request from: Process Monitor

Question:

If you have not performed additional evaluation on the applicable projects from last year's filing, please confirm whether you plan to do so, describe the timing and process of this evaluation, and specify whether you plan to explicitly include the projects in future Grid Needs Filings.

Response:

Please refer to the Company's responses in PMEV-002 through PMEV-004. The Company reviews each project regularly through its internal planning processes and if projects from previous filings are reviewed internally and new or changed NWS evaluations are required, those projects would then be included in the current annual process filings. The company did not include any of those in the 2026 filings because no new NWS evaluations were required.
