Date Submitted: July 9, 2026

CAE-002 Q:

Provide a recommendation on whether to include average and total annual performance incentive payments in the ESS Program data dashboard to enhance cost transparency.

CAE-002 A:

The United Illuminating Company supports the inclusion of average and total annual performance incentive payments in the ESS Program data dashboard. Providing this information would enhance transparency and allow customers to compare the performance of similar systems. Increased visibility into program outcomes may also encourage improved performance across original equipment manufacturers (OEMs).

Any additional information regarding implementation timelines or data requirements for the ESS Program data dashboard should be provided by the CT Green Bank, which owns, maintains, and updates the dashboard.
