MOTION FOR EXTENSION OF TIME BY THE CONNECTICUT LIGHT AND POWER COMPANY

The Connecticut Light and Power Company d/b/a Eversource Energy (the "Company") respectfully requests that the Public Utilities Regulatory Authority ("PURA") grant a two-week extension of time from April 3, 2026, up to and including April 17, 2026, for the Company to submit responses to interrogatories issued by the Process Monitor on March 20, 2026 ("PMEV Set 1"). The Company requests an extension of time consistent with PURA's Notice of Proceeding issued on January 23, 2026 ("Notice"), which requires that any person requesting a procedural change or other Authority approval must file a motion. Notice at 3. Specifically, the Notice requires that motions for extension of time "shall be filed in advance of the prescribed deadline and should provide sufficient time for the Authority to consider timely objections and to rule on the motion." Id. The Company submits this Motion four business days in advance of the current due date for the responses to PMEV Set 1.

The interrogatories in PMEV Set 1 were issued with an initial due date of April 3, 2026. PMEV Set 1 encompasses a total of 17 individual interrogatories, plus sub-parts. The interrogatories from PMEV Set 1 seek detailed information related to relevant aspects of the Company's initial filings in this docket on February 6, 2026 (the "Initial Filings"). Specifically, the interrogatories request additional detailed information based on its Initial Filings.

At this time, the Company has determined it is unlikely it will be able to produce complete and accurate responses to the interrogatories within the current due date. The Company respectfully requests that PURA grant a two-week extension of time due to the complexity of these issues, as well as concurrent timelines and dates for this docket. Subject matter experts for the Company have been working diligently to respond to interrogatories RSR-001 through RSR-014 from PURA that are due March 31, 2026.[1] Furthermore, the volume and data required for the Company to respond to the interrogatories directed to it require in-depth research, data extraction, analysis and review, and input from subject matter experts and numerous individuals from various parts of the organization, including management personnel and legal counsel, to ensure complete and accurate responses.

The Company is working diligently and using best efforts to produce responses to PMEV Set 1 on a timely basis. However, for the reasons stated in this Motion, the Company requires a ten working day extension of time for the interrogatories to have a reasonable amount of time to research, prepare, review, and submit complete and accurate responses.

WHEREFORE, the Company respectfully requests PURA grant a two-week extension of time from April 3, 2026, up to and including April 17, 2026, to respond to PMEV Set 1 interrogatories.
