STATE OF CONNECTICUT

PUBLIC UTILITIES REGULATORY AUTHORITY

October 2, 2026
In reply, please refer to:
Docket No. 26-08-07

Re: Docket No. 26-08-07 – Innovative Energy Solutions Program Cycle 5

Dear Docket Participants:

On December 2, 2025, the Public Utilities Regulatory Authority (Authority) opened the above-referenced docket to evaluate innovative pilots, technologies, products, and services for Cycle 5 of the Innovative Energy Solutions (IES) program. Subsequently, the Authority opened Docket No. 26-09-17, PURA Review of Process Improvements for the Innovative Energy Solutions Program, to consider process improvements to the IES program.

Rather than initiate the proceeding in the above-referenced docket, the Authority has decided to postpone Cycle 5 of the IES program until it has an opportunity to consider process improvements to the program. Consequently, the Authority closes the above-referenced docket. The Authority tentatively plans to open a docket to evaluate innovative pilots, technologies, products, and services for Cycle 5 in 2027 and to issue the Cycle 5 innovation solicitation in January 2028.

By the following commissioner,

Thomas H. Wiehl
Chairman
