Mr. Jeffrey R. Gaudiosi, Esq.
Executive Secretary
Public Utilities Regulatory Authority
10 Franklin Square
New Britain, CT 06051

Re: Docket No. 86-12-03, Long Range Investigation to Examine the Adequacy of the Transmission and Distribution Systems of The Connecticut Light and Power Company and The United Illuminating Company, Compliance with Order No. 1 of the Final Decision

Docket No. 25-08-09, Annual Electric Distribution Company Reliability and Resilience Framework Review, Correspondence

Docket No. 26-08-08, Non-Wires Solutions Process Cycle 2, Correspondence

Dear Mr. Gaudiosi:

Order No. 1 in the Public Utilities Regulatory Authority's ("Authority") Decision, dated April 13, 1989, in Docket No. 86-12-03 states:

> *CL&P and UI are ordered to submit comprehensive annual Transmission and Distribution Reliability Performance "TDRP" reports each year in a format acceptable to the Department. Annual historical data shall be submitted by March 31 of every year and shall include, but not be limited to, the requirements in paragraphs #1b, #1c, #1d, #1e, #1g, #1h, and #1i below.*

Further, Order 1 in the Authority's Interim Decision, dated December 13, 2023, in Docket No. 23-08-09 states:

> *The EDCs shall file the annual TDRP report in Docket No. 86-12-03 and in the annual docket established by the Authority pursuant to Order No. 7 of the RE08 Decision which is Docket No. 2X-08-09, where 2X is the last two digits of the calendar year (e.g. 24 in 2024). In addition to the data traditionally provided in the TDRP, the EDCs shall additionally provide reliability data using the major event day methodology defined by IEEE-1366 for the purposes of excluding major storms.*

In compliance with the above noted orders, The United Illuminating Company hereby submits the attached annual TDRP Report.

I hereby certify service of this filing upon all parties or intervenors of record in this proceeding.

Sincerely,

James Nitz
