| APPLICATION OF FIBER ASSETCO LLC D/B/A ZAYO FOR AUTHORIZATION TO INSTALL FACILITIES UNDER AND OVER CERTAIN PUBLIC RIGHTS-OF-WAY | ) | DOCKET NO. 26-09-XX |
| | ) | SEPTEMBER 24, 2026 |

## AFFIDAVIT OF ANIL ABRAHAM

Anil Abraham, being duly sworn, deposes and says:

1. My business address is 1101 East Linden Avenue, Linden, NJ 07036.

2. I am over the age of eighteen and believe in the obligation of an oath.

3. I am the Regional Vice President, Northeast for Fiber AssetCo LLC d/b/a Zayo ("Fiber AssetCo" or the "Company").

4. I am familiar with the information that Fiber AssetCo seeks to file with the Public Utilities Regulatory Authority ("PURA" or the "Authority") in connection with the PURA New Docket Application, Application of Fiber AssetCo LLC d/b/a Zayo for Authorization to Install Facilities Under and Over Certain Public Rights-of-Way (the "Application") and specifically information contained in Confidential Attachment A and Confidential Appendix I, both contained within its Application for Authorization to Install Facilities Under and Over Certain Public Rights-of-Way. Specifically, Fiber AssetCo is providing information regarding (i) Fiber AssetCo's one-year capital and construction budget for Connecticut and (ii) the exact street address locations of Fiber AssetCo's proposed fiber installations (collectively, the "Confidential Information").

5. The information regarding Fiber AssetCo's one-year capital and construction budget for Connecticut is "commercial" and "financial" information because it is the actual

dollar amount that Fiber AssetCo has allocated to this discrete commercial fiber build project for one year in Connecticut. Disclosure of this information could be used to calculate Fiber AssetCo's projected build-out costs, level of commercial investment in and cost of maintenance of Fiber AssetCo's fiber infrastructure in Connecticut which competitors could use to undermine and harm Fiber AssetCo's business plans and deployment strategies. Fiber AssetCo's fiber services are governed by individually negotiated commercial and confidential agreements with each of Fiber AssetCo's customers. The statistical data regarding Fiber AssetCo's one-year capital and construction plan and budget for Connecticut, which is dictated largely by individual commercial agreements is "commercial" in nature because it shows Fiber AssetCo's projected build-out costs, level of commercial investment and cost of maintenance of Fiber AssetCo's fiber infrastructure as well as penetration and level of build-out of its commercial fiber infrastructure in Connecticut. The information regarding the exact street address locations of the proposed fiber installations contained in the Application is "commercial" and "financial" information because it contains the lists, depictions and maps of specific street addresses at which Fiber AssetCo intends to deploy its fiber facilities. Fiber AssetCo's competitors could use this information to undermine and harm Fiber AssetCo by approaching the owners and/or tenants located at those specific street addresses and trying to undercut Fiber AssetCo's negotiated prices for fiber services.

6. I have been informed by Counsel that the information regarding (i) Fiber AssetCo's one-year capital and construction budget for Connecticut and (ii) information regarding the exact street address locations of the proposed fiber installations contained in the Application is not required to be submitted publicly pursuant to any statute.

7. Fiber AssetCo would only be willing to provide this information under the condition that the information will be protected from public disclosure.

8. Fiber AssetCo is in the business of providing fiber services in the state of Connecticut. In the course of its business, Fiber AssetCo competes with other companies which provide comparable services.

9. Fiber AssetCo has maintained the confidentiality of this Confidential Information. This Confidential Information has not been and will not be disclosed or released to the general public, nor has it been disclosed to the Fiber AssetCo's competitors.

10. The public disclosure of this Confidential Information would permit the public, potential customers to Fiber AssetCo's fiber services and FiberCo's fiber competitors unfair insight into Fiber AssetCo's business, its competitive fiber services and its fiber network composition, penetration and level of build-out in Connecticut. Unfair visibility into Fiber AssetCo's one-year capital and construction budget for Connecticut would unfairly allow Fiber AssetCo's competitors to understand Fiber AssetCo's investment strategy in fiber and may influence a competitor's decision to invest and overbuild or otherwise gain a competitive advantage in Fiber AssetCo's fiber markets and to undercut Fiber AssetCo's fiber services. Unfair visibility into Fiber AssetCo's exact street address locations of the proposed fiber installations may influence a competitor's decision to invest and overbuild or otherwise gain a competitive advantage. For example, implicit in knowing Fiber AssetCo's current plans to build fiber at exact street addresses would be unfairly benefiting from Fiber AssetCo's commercial and financial due diligence it performed to determine that a particular area is viable from a commercial and financial perspective to build and expand fiber facilities and operations. Fiber

AssetCo heretofore has used its best efforts to maintain the Confidential Information as secret in order to avoid the harm that would result if the information were to become publicly available.

11. Fiber AssetCo would be adversely affected for the reasons described herein if this Confidential Information is made publicly available.

Anil Abraham
