Re: Docket No. 26-09-03 – Application of the Connecticut Light and Power Company d/b/a Eversource Energy to issue Long-Term Debt

Dear Attorney Pace:

On September 1, 2026, the Connecticut Light and Power Company d/b/a Eversource Energy (Eversource) filed an application (Application) to the Public Utilities Regulatory Authority (Authority) for approval to issue long-term debt pursuant to General Statutes § 16-43(b) in the above captioned proceeding. General Statutes § 16-43(b) states, "[t]he authority shall approve or disapprove each such issue or amendment within sixty days after the filing of a written application for such approval unless the applicant agrees to an extension of time." Eversource indicated that it filed Attachments A through O which provide a summary of the information required to file pursuant to General Statutes § 16-43(b) and Regulations of Connecticut State Agencies § 16-43-3(a). Application, p. 2. However, the Application was missing Attachment M from the September 1, 2026 filing. Therefore, the Authority requests that Eversource file Attachment M, and additionally, the Authority requests that Eversource approve a three-week extension to the originally requested approval date of November 2, 2026.[1] If Eversource agrees, the extension would push the deadline for an approval to November 23, 2026. Lastly, the Authority requests that Eversource respond to this correspondence no later than **Tuesday, September 22, 2026, at 4:00 PM**. Additionally, Eversource shall file Attachment M no later than September 25, 2026, at 4:00 PM.

By the Presiding Officer,

Everett Smith, III

cc: Service List

[1] The Application was filed on September 1, 2026. The 60 day statutory deadline would therefore be October 31, 2026, however, Eversource has requested an approval date of November 2, 2026 in its application.
