Distributed Energy Resources
107 Selden St.
Berlin, CT. 06037

Date: 7/20/2026

Attention: Patrick Lewis

RE: Permission to Operate – FIRST LIGHT POWER RESOURCES INC

Address: 2225 RIVER RD BLDG G SOUTHBURY, CT, 06488

Equipment: This is a 250 kW AC PV installation with four (4) SMA STP 62-US-41 three-phase inverters at 480 volts, on a three-phase 277/480 volt service, and no energy storing devices

Approval to Energize Revised Date: 7/20/2026

Dear Patrick Lewis,

This is a letter for approval to energize of the above stated project to the Eversource system in accordance with the Interconnection Agreement. As stated in the Interconnection Agreement (enclosed) and the "Generator Interconnection Guidelines", the following items must be provided to the Eversource Distributed Resources Group on a regular basis:

1. Annually: Provide a certificate of insurance as described in the enclosed interconnection agreement prior to the insurance expiration date. Please send it to InsuranceCTDG@Eversource.com or to the following address by that date:

   Eversource Distributed Resources
   P.O. Box 1409
   Hartford, CT 06143-1409

2. You are responsible for the periodic maintenance of the relays, interrupting devices, control schemes, and batteries that involve the protection of the EDC's system. Eversource may audit these reports, logs, and other material regarding the interconnection of the Generating Facility at its discretion.

Sincerely,

Senior Account Executive
Distributed Energy Connections
Eversource Energy
