Exhibit A-16

Metergy Solutions LLC ("Metergy") and its affiliates are one of North America's most experienced submetering providers, with more than 20 years of experience in the industry and over 600,000 water, thermal, and electricity meters under contract. Metergy is primarily a billing services specialist and acts as an electric billing company and submetering service provider for many multi-family residential buildings, including in New York.

As part of its services, Metergy reads the submeters monthly in these buildings, processes bills, maintains a customer care portal where residents can pay their bills and access their billing history, and handles any customer inquiries and complaints. Prior to commencement of submetering services, Metergy also conducts outreach and education to inform residents how to reduce their consumption. Metergy does not perform energy procurement functions for its customers, and does not partner with energy service companies.

Quadlogic Controls Corporation ("Quadlogic"), a subsidiary of Metergy, has been a leader in submetering Technology for more than 40 years. Quadlogic primarily designs and manufactures electrical submetering systems (several of which are on the New York Public Service Commission list of approved submeters). In addition, Quadlogic provides regulatory support for submetering applications, submeter compliance testing, and bill generation, collection, and invoicing services for both residential and commercial customers primarily in New York, as well as New Jersey and Connecticut.
