III. Investment or Initiative Eligibility

12. Provide a description of proposed capital and equipment investment or education technology initiative. State expected enhancements to PEG programming or education technology. If applicable, state why similar equipment is not available from the local community access studio (PEG only).

We are requesting funds for the purchase of 50 Chromebooks for students to support our ongoing commitment to ensuring that all students develop essential computing skills by the sixth grade. These devices will allow us to provide targeted instruction and hands-on learning opportunities that build digital literacy, strengthen problem-solving skills, and promote the responsible use of technology.

By expanding access to Chromebooks, we will help bridge the digital divide and provide students with equitable access to the technology and digital resources they need to succeed. This investment will support classroom learning and prepare students for future academic and career opportunities.

13. Identify the affected geographical area(s) and/or school system(s) that will benefit from the investment or initiative:

The investment will benefit Lebanon Public Schools in Lebanon, Connecticut, serving students, teachers, and building administrators across the district's elementary, middle, and high schools. The 50 Chromebook devices will provide updated technology for students.

14. State the number of subscribers served or students impacted:

931

15. List the schedule for implementation, including estimated dates for key milestones and completion.

Note: Completed projects are not eligible.

Upon the receipt of the grant LPS will place the order for the Chromebooks. Immediately upon delivery the IT Department will enterprise the devices to our lebanonct.org account and will asset tag them for better accountability. After the setup is complete the IT Team will distribute the Chromebooks to students in need of a new updated device.

16. Identify objective performance measures that can be used to evaluate the success or effectiveness of the investment or initiative:

The objective performance measures that we anticipate using to evaluate the effectiveness of this technology initiatives include student engagement metrics, such as observation checklists and participation rates, academic performance data, including formative assessments, and feedback surveys from students, teachers and families. These would collectively provide a comprehensive view of the impact of the new technology on students learning and engagements.

17. Description of organization, including experience and competence related to the proposed project:

The Lebanon public Schools has its own Information Department. It consists of a Director of Information and two full time technicians. This group is responsible for all networks and devices throughout the district. It is also responsible for all Student Information System (SIS), State Reporting and rostering associated with the platforms they utilize. It is also responsible for any live stream equipment used. And responsible for any setup of presentations for school meetings with staff and to the public including some town meetings held at our schools. Two years ago the IT Department was able to add live stream equipment to the High School, library with the leverage of the PEGPETIA Grant.
