

STATE OF CONNECTICUT

PUBLIC UTILITIES REGULATORY AUTHORITY

PETITION FOR A DECLARATORY RULING REGARDING THE STATUTORY AND REGULATORY OBLIGATIONS OF CERTIFICATE OF CABLE FRANCHISE HOLDERS	Docket No. 26-10-06 November 19, 2026

MOTION TO INTERVENE

In accordance with Connecticut General Statutes §§ 16-9a, 4-177a and Regulations of Connecticut State Agencies § 16-1-17, the New England Connectivity and Telecommunications Association, Inc. ("NECTA") hereby moves the Public Utilities Regulatory Authority ("Authority") to intervene in the above-captioned proceeding. In support of its motion, NECTA states as follows:

1. NECTA is a non-profit corporation and trade association that represents the interests of most cable operators in New England, including affiliates of Breezeline, Charter Communications, and Comcast in Connecticut (collectively, the "NECTA Members").

2. NECTA has represented the interests of the NECTA Members in numerous proceedings conducted by the Authority and its predecessor, the Department of Public Utility Control.

3. On October 10, 2026, the Cox/Charter Cable Advisory Council, Manchester Franchise ("CAC") submitted an application requesting that the Authority issue a Declaratory Ruling pursuant to General Statutes § 4-176 to address questions of law concerning the notice obligations of certain regulated telecommunications companies ("Application").

4. On November 5, 2026, the Authority issued the Notice of Proceeding designating the CAC, Charter Communications, Inc., the Office of Consumer Counsel, and the Commissioner of the Department of Energy and Environmental Protection as parties to the proceeding, and requiring other persons seeking party or intervention status to file a motion by November 19, 2026.

5. The Application raises questions of law including whether and to what extent different sections of the General Statutes on programming and rate-change notice apply to holders of Certificates of Cable Franchise Authority ("CCFA"), whether any such requirements apply to an Over-the-Top ("OTT") service that is not a Title VI cable service, and whether any advance-notice requirements applied to the introduction of Spectrum programming and other charges in the legacy Cox service areas.

6. NECTA Members hold CCFAs, and the Application poses questions of general applicability, the resolution of which may directly and significantly affect NECTA Members, in addition to Charter. Accordingly, NECTA requests that the Authority determine that NECTA's participation is in the interests of justice and will not impair the orderly conduct of the proceedings.

7. Copies of all pleadings and other materials should be provided to the following:

Tim Wilkerson
New England Connectivity and
Telecommunications Association
53 State St, Suite 525
Boston, MA 02109
(781) 843-3418
twilkerson@connectingne.com

WHEREFORE, NECTA respectfully requests that the Authority grant its motion to intervene in this proceeding.

Respectfully submitted,

THE NEW ENGLAND CONNECTIVITY AND TELECOMMUNICATIONS ASSOCIATION, INC.

/s/ Tim Wilkerson
