RE: Library Cameras

Margaret,

Here is the estimate for the electrical at the Library. Price reflects information from our job site visit. *Thanks for the opportunity.*

This proposal includes:

Remove (7) existing cameras

Install the (5) customer supplied cameras in customer selected existing locations

The (2) camera locations by the rear right side entrance will be removed

Utilize attic to relocate existing data cable from one of the locations to a ceiling location **where feasible.** Extend wire utilizing data coupler if necessary and install customer supplied new camera

Install customer supplied data cable from existing DVR in office to above new rear entry door and install customer supplied new camera

Install customer supplied EMT conduit on left side exterior of building up to ceiling of front entrance and install customer supplied box and new camera

Terminate customer supplied male ends on new cameras and at DVR

Price including labor only for existing DVR location----------$6,500.00
***Any repair or replacement of existing cables if damaged will be additional time+material cost**

Install customer supplied EMT conduit and fittings on left side exterior of building to relocate existing data cables from existing DVR location in office to data closet on left front corner of basement. Data couplers will be used on existing cables to extend. Install customer supplied ends and cable in conduit. Punch down to IT installed new server.

Additional price to relocate DVR to data closet labor only----------$4,500.00
****Budget around $1,000.00 extra for materials needed (data cable, ends, conduit, and fittings)**

This proposal does not include:

Anything other than listed above
