Public Educational and Governmental Programming and Education Technology Investment Account (PEGPETIA) Grant Program Application & Itemized Budget

Instructions for Filing a Motion to Apply for a PEGPETIA Grant

Motion Deadline

The Public Utilities Regulatory Authority (Authority or PURA) oversees a program to award Public Educational and Governmental Programming Grants (PEG Grants) and Education Technology Investment Grants (ETI Grants) to eligible entities. See General Statutes § 16-331cc. **This PEGPETIA Grant Program Application must be filed as a motion in Docket No. 26-10-02 no later than noon on November 20, 2026.**

Program Funding Eligibility

PEG grant funding is intended to improve public, educational, and governmental access programming in Connecticut, and funds should be used for capital and equipment costs that aid the production or procurement of public, educational, and governmental programs. To ensure the funding is used appropriately, after completion of the project, PEG grant recipients must file a report of the project enabled by the grant funds.

ETI grant funding is intended to support education technology initiatives of boards of education and other education entities (public and private schools are eligible to apply). To ensure the funding is used appropriately, after completion of the project, ETI grant recipients must file a report of the project enabled by the grant funds.

Submission of Motion

Applicants must complete and file the Application with Itemized Budget electronically to PURA as a motion in Docket No. 26-10-02, at https://portal.ct.gov/pura/about/filing-and-forms/make-an-electronic-filing. Applicants who have not previously registered must first register for an account.

Motions must include an Application and Itemized Budget for the projects to be funded by the grant. Quotes, invoices, or similar documentation must be submitted for each item to be purchased with grant funds.

The motion will be assigned a unique motion number after it is filed. The allowable electronic filing size is 20 MB. If the motion's attachments (Application with Itemized Budget plus other attachments) exceed the allowable limit, the motion may include only the completed Application with Itemized Budget, and the remaining attachments must be filed as supplemental filings to the same motion. Subsequent supplements must also be filed as supplemental filings under the assigned motion number.

Questions regarding the electronic filing of the motion and supplements should be directed to Docket Control at PURA.ExecutiveSecretary.gov or (860) 827-2836.

III. Investment or Initiative Eligibility

12. Provide a description of proposed capital and equipment investment or education technology initiative. State expected enhancements to PEG programming or education technology. If applicable, state why similar equipment is not available from the local community access studio (PEG only).

This is an investment in equipment for our educational technology goal to improve our technology infrastructure and fulfill educational technology initiatives in K-12 classrooms which we are unable to fund out of our operating budget. The project will provide 8 classrooms with 35 of 75 inch interactive touchscreen display units. Each display unit can be connected either wired or wirelessly to our high-speed network and each is equipped with a built in Windows slot in computer and web camera. Staff and students will have the capability to interact and present to the display, communicate, and collaborate from various devices. These units will serve as the teacher's primary instructional computer directly benefiting teachers and students in our schools. This project supports our educators in helping them continually improve their practice by learning from and with others while further exploring proven and promising practices that leverage technology to improve student learning and outcomes for students. This project enhances school safety and communication and supports Connecticut's educator and student standards for learning and technology. This is in alignment with the Commission for Education Technology's Goals for digital learning and infrastructure and the General Assembly's Education Technology Goals to wire all classrooms and connect them to the Internet and statewide network through wired, wireless, or any other digital transmission technology to provide high-speed connectivity.

13. Identify the affected geographical area(s) and/or school system(s) that will benefit from the investment or initiative:

The Granby Public School School system in the Town of Granby, CT, staff, students, and surrounding community will directly benefit from this investment.

14. State the number of subscribers served or students impacted:

This project will directly benefit the Granby, Connecticut K-12 school system and community consisting of roughly 350 staff members and 1750 students. We have a central services office building, 1 high school, 1 middle school, 1 intermediate school, and 1 primary school.

15. List the schedule for implementation, including estimated dates for key milestones and completion.

Note: Completed projects are not eligible.

The classroom displays would be purchased and installed in rooms during the months of July - September 2027 or as soon as funds are available.

16. Identify objective performance measures that can be used to evaluate the success or effectiveness of the investment or initiative:

This project will immediately improve safety, communication, education, and technological infrastructure by equipping our K-12 schools and classrooms, teachers and students with modern technology tools and high-speed connectivity. This project will further integrate technology and enhance learning opportunities and outcomes fo all stakeholders.

17. Description of organization, including experience and competence related to the proposed project:

The Granby Public Schools serve the community of Granby, Connecticut. The purpose of our public K-12 school district is to effectively educate our students and prepare them for life beyond high school. We strive to improve student achievement, academic performance and opportunities at all grade levels and for all ability levels and decrease achievement gaps on the path to college and career readiness. We enhance communication and build trusting relationships with all stakeholders. This investment will improve our technological infrastructure, communication, safety, ability to connect classrooms to the high-speed network, and educational technology resources. This project delivers valuable technology tools directly to teachers and students as they continuously develop their skills. This initiative greatly enhances the learning process and classroom space which directly supports our district's overall mission that all students become powerful thinkers, effective collaborators, and compassionate contributors in preparation for success in a dynamic, interdependent, world.

IV. Budget Information

18. Partner organization(s) or other funding sources (if applicable):
