## PUBLIC UTILITIES REGULATORY AUTHORITY

**Public Educational and Governmental Programming and Education Technology Investment Account (PEGPETIA) Grant Program Application & Itemized Budget**

***Instructions for Filing a Motion to Apply for a PEGPETIA Grant***

***Motion Deadline***

The Public Utilities Regulatory Authority (Authority or PURA) oversees a program to award Public Educational and Governmental Programming Grants (PEG Grants) and Education Technology Investment Grants (ETI Grants) to eligible entities. See General Statutes § 16-331cc. **This PEGPETIA Grant Program Application must be filed as a motion in Docket No. 26-10-02 no later than noon on November 20, 2026.**

***Program Funding Eligibility***

PEG grant funding is intended to improve public, educational, and governmental access programming in Connecticut, and funds should be used for capital and equipment costs that aid the production or procurement of public, educational, and governmental programs. To ensure the funding is used appropriately, after completion of the project, PEG grant recipients must file a report of the project enabled by the grant funds.

ETI grant funding is intended to support education technology initiatives of boards of education and other education entities (public and private schools are eligible to apply). To ensure the funding is used appropriately, after completion of the project, ETI grant recipients must file a report of the project enabled by the grant funds.

***Submission of Motion***

Applicants must complete and file the Application with Itemized Budget electronically to PURA as a motion in Docket No. 26-10-02, at https://portal.ct.gov/pura/about/filing-and-forms/make-an-electronic-filing. Applicants who have not previously registered must first register for an account.

**Motions must include an Application and Itemized Budget for the projects to be funded by the grant. Quotes, invoices, or similar documentation must be submitted for each item to be purchased with grant funds.**

The motion will be assigned a unique motion number after it is filed. The allowable electronic filing size is 20 MB. If the motion's attachments (Application with Itemized Budget plus other attachments) exceed the allowable limit, the motion may include only the completed Application with Itemized Budget, and the remaining attachments must be filed as supplemental filings to the same motion. Subsequent supplements must also be filed as supplemental filings under the assigned motion number.

Questions regarding the electronic filing of the motion and supplements should be directed to Docket Control at PURA.ExecutiveSecretary.gov or (860) 827-2836.

## III. Investment or Initiative Eligibility

12. Provide a description of proposed capital and equipment investment or education technology initiative. State expected enhancements to PEG programming or education technology. If applicable, state why similar equipment is not available from the local community access studio (PEG only).

The project for this is the remainder of the project we submitted originally for 24-10-02, but needed to scale due do to the grant award being reduced. This project is to upgrade and enhance five areas of production; Workstations, Studio Set, Field Production and Network Storage and Broadcast Server.

1. WORKSTATIONS
Computers: 2 new Mac minis, 3 Macbook pros to replace older Macs that have reached near their end of use. The older Macs have older technology that cannot be software or hardware upgraded. Additional computers are needed for our summer KIDVID program. Office computer to replace 2016 computer. This computer is used for bookkeeping and administrative tasks.

Additional for Workstations: Adobe creative subscription for staff and volunteers, DaVinci Resolve Studio software

2.STUDIO
Lighting: New LED RGBW lighting, RGB LED flat panel lights to replace our current lighting system. Cables, connectors and other lighting related hardware needed.

Additional Studio: Blackmagic Design ATEM Television Studio HD8 to replace aging TriCaster. Portable SSD drives. Storage Cabinets

3. FIELD PRODUCTION - Creating an "on the go" mobile studio
An all built in system to record, transmit, livestream wirelessly from cameras in the field, or studio if needed. Backup recorder and audio/video signal distributor. New field cameras to replace aging models from 2016. DJI Osmos for field production and KIDVID summer program. Monitors, Rack cases, converters, HyperDeck Studio, wireless transmission equipment, cables and miscellaneous.

Miscellaneous for Field
Cinema cameras for use in documentary style filmmaking for community members, Tripods, Equipment wagon.

4. NETWORK STORAGE
New storage & back up to extend the current network, and including new security cameras. Updated Ethernet Cables.

5. BROADCAST SERVER
Cablecast add-on streaming service subscriptions

13. Identify the affected geographical area(s) and/or school system(s) that will benefit from the investment or initiative:

The grant will a benefit to approximately 29,000 adult & children of Windsor, CT as well as other individuals who from other CT towns and states who view our programming by watching the live stream on our website, or by watching our live stream & on demand programs on our YouTube Channel. We serve approximately 70 children ages 8-14 every summer for our KIDVID program.

14. State the number of subscribers served or students impacted:

We are not given information on the amount of cable subscribers we have. Our school system has approximately 4,000 students in public schools and 2,000 in private schools. Our YouTube Channel currently has 2.45K subscribers.

15. List the schedule for implementation, including estimated dates for key milestones and completion.

***Note: Completed projects are not eligible.***

Implementation would begin immediately upon receipt of the grant funds.

16. Identify objective performance measures that can be used to evaluate the success or effectiveness of the investment or initiative:

Objective performance measures are the same as in our previous grant applications:
- Updated equipment will streamline our pre & post production workflow. We expect to see an increase in the amount of shows we are putting out.
- Expand our reach via our website & YouTube. Analytics and an increase in viewership, comments and social media engagement data can all be gathered and analyzed.
- Increase our volunteer base. We expect to measure the success of this grant by seeing an increase in our volunteer base.

17. Description of organization, including experience and competence related to the proposed project:

WIN-TV was founded in 1982 and has evolved into a 24 hour, 7 days a week community media center. Our staff and volunteers create community media each and every day.

Members of our community come into our studio to create their own content regularly with the equipment we have available to them, and we assist them with their productions. We check out equipment to community members to use to film events happening in town, or to create their own content that can air on WIN-TV. We cover, live, all municipal and Board of Education meetings to provide residents full transparency on what is happening in their community. We live stream all meetings to the internet and make them available for playback.

We offer on-line adult education classes on production and social media topics which we promote through our website, social media, Adult Education program and through the Chamber of Commerce calendar. For kids ages 8 - 14, we offer 6 individual weeks of TV and film production workshops during summer. We also offer a free after school video production program for Middle School students.

Our employees have a combined experience of over 50 years in the field of television, film and video production. Our staff are proficient in several software programs such as Adobe Premiere, Final Cut Pro, After Effects, Photoshop, Audition and more. All of our staff have attended advanced education in the field of video production and continue to attend advanced workshops to enhance and expand their skills. The Executive Director has been with WIN-TV for 17 years and has secured grants from organizations like the Hartford Foundation For Public Giving and The Town of Windsor all of which has aided in moving WIN-TV forward it our mission.
