Re: Docket No. 26-11-XX – Application of Connecticut Natural Gas Corporation and The Southern Connecticut Gas Company to Amend Their Rate Schedules –**Request of The Southern Connecticut Gas Company for Waiver of Standard Filing Requirements**

Dear Mr. Gaudiosi:

On November 13, 2026, The Southern Connecticut Gas Company ("SCG") issued a notice pursuant to R.C.S.A. § 16-1-22(b) with respect to its plan to file a distribution rate application with the Public Utilities Regulatory Authority ("PURA") within the next 30 to 60 days. Pursuant to R.C.S.A. § 16-1-53a and Paragraph 2.4 of PURA's Standard Filing Requirements for Large Public Utility Companies ("SFRs"), SCG submits this letter to request that PURA grant a waiver of certain SFRs listed below, which are not applicable to SCG's upcoming rate application.

This waiver request applies to the following schedules:

B-2.3: Summary of Jurisdictional Allocation Factors
B-2.4: Jurisdictional Allocation Studies
B-10.0: Capitalized Conservation
B-11.0: Other - Bonus Rate of Return

Schedules B-2.3 and B-2.4, respectively, request a summary of jurisdictional allocation factors and jurisdictional allocation statistics for rate base. Neither are applicable to the Company's pending rate application as the utility property reflected in the Company's proposed rate base is recorded on the Company's books and is not the result of any allocation procedures, with the exception of certain property allocated to the Company in 2018 previously reflected on UIL Holdings Corporations books. This property was previously charged to the Company through the "Corporate Capital Charge" and, in 2018, was allocated to the Company at an allocation factor of 17.16 percent. This information was presented in the Company's most recent distribution rate case, Docket No. 23-11-02. The Company anticipates that additional details on allocation factors will be provided in Schedules C-2.1 and C-2.2.

Schedules B-10.0 and B.11.0 are not applicable to SCG because: (1) SCG does not have capitalized conservation, and (2) SCG is not seeking a bonus rate of return.

SCG submits that granting the requested waiver is reasonable and consistent with the purpose of the SFRs, which "are designed to assist [PURA] in performing a thorough and expeditious review of applications for revenue requirement changes." SFRs at ¶ 2.1. This waiver will not affect or limit the ability of PURA or other parties to obtain information relevant and necessary for full consideration of SCG's rate application. SCG's waiver request is consistent with the waiver request granted by PURA in its prior rate case, Docket No. 23-11-02.

Thank you for your consideration of this request. Please contact me if you require additional information regarding this request.

Sincerely,

Kerri A. Gowaski
