COMMENTS

Panasonic/PT-MZ20KLBU7
20, 000 Lumens, LCD, WUXGA Resolution (1, 920 x 1, 200) No Lens

Schools and businesses are evolving IT/IP infrastructure to improve communication quality in a post-pandemic world, moving to large hybrid learning and meeting spaces that avoid overcrowding and encourage fluent collaboration between on-site and remote participants. PT-MZ20K series meets demand for ultra-bright images in these well-lit areas to engage groups in diverse content, and to support high-quality image rebroadcast via IP camera. In addition to color-rich picture quality with 20,000 lm1 brightness, the projector's compact form-factor and quiet operation blends unobtrusively into the room, minimizing distractions. Panasonic's exclusive time-saving technologies, meanwhile, reduce installation complexity, effort, and cost, making PT-MZ20K series a smart choice for value-conscious customers

Panasonic/ET-EMW200
.48 0.55:1 Zoom lens for PT-MZ16K/MZ13K/MZ10K
Lens Type: Zoom
